Anastasiia Volosevych

📍 Saratoga Springs, UT   ✉ anastasiiavolosevych@gmail.com   🐙 volosevych

Front-End Developer with a focus on modern technologies, responsive user interfaces, and clean, maintainable code. Experienced in turning design concepts into functional, accessible websites and collaborating closely with clients and developers to deliver polished front-end solutions.

Education

Western Governors University   *October 2022 — January 2024*

Bachelor in Computer Science (3.5 GPA)

- Ethics in Technology
- Fundamentals of Information Security
- Calculus I
- Scripting and Programming - Applications
- Network and Security - Foundations
- Scripting and Programming - Foundations
- Computer Science Project Development with a Team

Experience

Front-End Developer   *December 2024 — Present*

Collaborated with clients on Upwork to deliver responsive, user-friendly websites using modern front-end technologies. Translated design files into clean code, customized layouts for various industries, and ensured performance and cross-browser compatibility.

- Built and maintained responsive websites using HTML, Tailwind CSS, Bootstrap, and JavaScript.
- Converted Figma designs into fully functional UI components optimized for performance and accessibility.
- Collaborated with clients and back-end developers to ensure smooth integration and functionality.

Front-End Developer   *February 2025 — Present*

Worked full-time with international clients via Upwork to develop and enhance modern websites across various niches. Focused on creating scalable components, reusable layouts, and customized user interfaces aligned with each client's brand and functionality goals.

- Developed fully responsive websites using HTML, Bootstrap, and JavaScript tailored to client needs.
- Implemented reusable components and scalable layouts for faster development and easier maintenance.
- Translated Figma and Adobe XD designs into functional interfaces with a focus on accessibility and performance.
- Collaborated directly with clients and back-end developers to integrate APIs and ensure end-to-end functionality.
- Delivered multiple web projects under tight deadlines while maintaining high-quality standards.

Languages

English: Fluent
Russian: Native Speaker

I LOVED working with Anastasia. We had an immediate, easy rapport. She was so accommodating, so easy to work with, so responsive, and ultimately, so insightful and helpful. A total professional who knows her stuff. She was able to do everything I wanted and more. My finished website exceeded my expectations. I Will definitely work with her again
